GLOSSARY OF DEFINITIONS

The following are abbreviations and definitions of terms used within this report:

Terms	Definitions
Brexit	Withdrawal of the U.K. from the European Union
BRL	Brazilian Real (R\$)
COVID-19 pandemic	Coronavirus disease first emerging in December 2019 and resulting in the ongoing global pandemic in 2020, 2021 and 2022
EPS	Earnings per share
F&I	Finance, insurance and other
FMCC	Ford Motor Credit Company
GBP	British Pound Sterling (£)
LIBOR	London Interbank Offered Rate
OEM	Original equipment manufacturer
PRU	Per retail unit
RSA	Restricted stock award
SEC	Securities and Exchange Commission
SG&A	Selling, general and administrative
SOFR	Secured Overnight Financing Rate
USD	United States Dollar (\$)
U.K.	United Kingdom
U.S.	United States of America
U.S. GAAP	Accounting principles generally accepted in the U.S.
VSC	Vehicle service contract

Forward-Looking Statements

This Quarterly Report on Form 10-Q (this "Form 10-Q") includes certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended ("Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended ("Exchange Act"). These forward-looking statements include, but are not limited to, statements concerning the Company's strategy, future operation performance, future liquidity and availability of financing, capital allocation, the completion of future acquisitions and divestitures, business trends in the retail automotive industry and changes in regulations. When used in this Form 10-Q, the words "anticipate," "estimate," "expect," "intend," "may" and similar expressions are intended to identify forward-looking statements.

These forward-looking statements are based on the Company's expectations and beliefs as of the date of this Form 10-Q concerning future developments and their potential effect on the Company. While management believes that these forward-looking statements are reasonable when and as made, there can be no assurance that future developments affecting the Company will be those that are anticipated. The Company's forward-looking statements involve significant risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements, including, but not limited to, the risks set forth in Item 1A, Risk Factors of this Form 10-Q.

For additional information regarding known material factors that could cause actual results to differ from projected results, refer to Item 1A. Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2021 (the "2021 Form 10-K"), as well as Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations and Quantitative and Qualitative Disclosures About Market Risk of this Form 10-O.

Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date hereof. The Company undertake no responsibility and expressly disclaim any duty, to update any such statements, whether as a result of new information, new developments or otherwise, or to publicly release the result of any revision of the forward-looking statements after the date they are made, except to the extent required by law.

1. BASIS OF PRESENTATION AND CONSOLIDATION AND ACCOUNTING POLICIES

Basis of Presentation and Consolidation

The accompanying Condensed Consolidated Financial Statements and notes thereto, have been prepared in accordance with U.S. GAAP for interim financial information and in accordance with the rules and regulations of the SEC. Accordingly, they do not include all of the information and notes required by U.S. GAAP for complete financial statements. Results for interim periods are not necessarily indicative of the results that can be expected for a full year and therefore should be read in conjunction with the Company's audited Financial Statements and notes thereto included within the Company's 2021 Form 10-K. All intercompany balances and transactions have been eliminated in consolidation. The accompanying Condensed Consolidated Financial Statements reflect the consolidated accounts of the parent company, Group 1 Automotive, Inc. (the "Company"), and its subsidiaries, all of which are wholly owned.

On November 12, 2021, the Company entered into a Share Purchase Agreement (the "Brazil Agreement") with Original Holdings S.A. ("Buyer"). Pursuant to the terms and conditions set forth in the Brazil Agreement, Buyer agreed to acquire 100% of the issued and outstanding equity interests of the Company's Brazilian operations (the "Brazil Disposal Group") for approximately BRL 510.0 million in cash (the "Brazil Disposal"). On July 1, 2022, the Company completed the Brazil Disposal. The Brazil Disposal Group met the criteria to be reported as held for sale and discontinued operations. Therefore, the related assets, liabilities and operating results of the Brazil Disposal Group are reported as discontinued operations (the "Brazil Discontinued Operations") for all periods presented. The Brazil Disposal Group was previously included in the Brazil segment. Effective as of the fourth quarter of 2021, the Company is aligned into two reportable segments: U.S. and U.K. Refer to Note 5. Segment Information for additional information on the Company's segments.

Unless otherwise specified, disclosures in these Condensed Consolidated Financial Statements reflect continuing operations only. Certain prior-period amounts, primarily related to the Brazil Discontinued Operations, have been reclassified in the Condensed Consolidated Financial Statements and accompanying notes to conform to current-period presentation. Refer to Note 4. Discontinued Operations and Other Divestitures for additional information.

Certain amounts in the Condensed Consolidated Financial Statements and the accompanying notes may not compute due to rounding. All computations have been calculated using unrounded amounts for all periods presented. These Condensed Consolidated Financial Statements reflect, in the opinion of management, all normal recurring adjustments necessary to fairly state, in all material respects, the Company's financial position and results of operations for the periods presented.

Use of Estimates

The preparation of the Company's financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the balance sheet date and the amounts of revenues and expenses recognized during the reporting period. Management analyzes the Company's estimates based on historical experience and other assumptions that are believed to be reasonable under the circumstances; however, actual results could differ materially from such estimates. The significant estimates made by management in the accompanying Condensed Consolidated Financial Statements include, but not limited to, inventory valuation adjustments, reserves for future chargebacks on finance, insurance and VSC fees, self-insured property and casualty insurance exposure, the fair value of assets acquired and liabilities assumed in business combinations, the valuation of goodwill and intangible franchise rights and reserves for potential litigation.

2. REVENUES

The following tables present the Company's revenues disaggregated by its geographical segments (in millions):

	Three Months Ended September 30, 2022					Nine Months Ended September 30, 2022					
	 U.S.		U.K.		Total		U.S.		U.K.		Total

Total revenues	\$ 2,662.4	\$	750.4	\$	3,412.8	\$	7,991.6	\$	2,000.7	\$	9,992.3	

⁽¹⁾ The Company has elected not to disclose revenues related to remaining performance obligations on its maintenance and repair services as the duration of these contracts is less than one year.

3. ACQUISITIONS

The Company accounts for business combinations under the acquisition method of accounting, under which the Company allocates the purchase price to the assets acquired and liabilities assumed based on an estimate of fair value.

Prime Acquisition

In November 2021, the Company completed the acquisition of the Prime Automotive Group ("Prime"), including 28 dealerships, certain real estate and three collision centers in the Northeastern U.S. (collectively referred to as the "Prime Acquisition"), for aggregate consideration of \$934.2 million.

The Company analyzed and assessed all available information related to property and equipment and property lease contracts, determining the preliminary fair values established in 2021, were appropriate and no material adjustments were recorded to these fair values in the nine months ended September 30, 2022. The Company previously recorded a \$33.4 million deposit for the purchase of an additional dealership as part of the Prime Acquisition, which had not closed as of December 31, 2021. As of September 30, 2022, the Company is still waiting for distributor approval to obtain ownership of the additional dealership. Pursuant to the purchase agreement with the seller, the seller initiated legal action against the distributor to compel the approval of the sale of the dealership. In March 2022, upon the contractual release of funds from escrow to the seller related to the dealership, the deposit was recognized as additional consideration paid and reflected as additional goodwill, resulting in total consideration associated with the Prime Acquisition of \$967.6 million. If such legal action is resolved within the 12-month measurement period following the acquisition date, the Company will make an adjustment to reflect the fair value of the acquisition of this dealership. The results of the Prime Acquisition are included in the U.S. segment. The goodwill is deductible for income tax purposes.

⁽²⁾ Includes variable consideration recognized of \$5.3 million and \$5.1 million during the three months ended September 30, 2022 and 2021, respectively, and \$22.2 million and \$18.7 million during the nine months ended September 30, 2022 and 2021, respectively, relating to performance obligations satisfied in previous periods on the Company's retrospective commission income contracts. Refer to Note 8. Receivables, Net and Contract Assets for the balance of the Company's contract assets associated with revenues from the arrangement of financing and sale of service and insurance contracts.

The following table summarizes the consideration paid and aggregate amounts of assets acquired and liabilities assumed (in millions):

Total consideration	\$ 967.6
Identifiable assets acquired and liabilities assumed	
Inventories	136.7
Property and equipment	266.8
Intangible franchise rights	135.3
Operating lease assets	58.3
Other assets (1)	 62.2
Total assets acquired	 659.3
Operating lease liabilities	56.6
Other liabilities (2)	38.3
Total liabilities assumed	 94.9
Total identifiable net assets	564.4
Goodwill	\$ 403.2

⁽¹⁾ Other assets acquired in connection with the Prime Acquisition include \$55.3 million of assets classified as held for sale as of the acquisition date. See the table below for additional details.

⁽²⁾ Other liabilities assumed in connection with the Prime Acquisition include \$1.7 million of liabilities classified as held for sale as of the acquisition date. See the table below for additional details.

Prime assets classified as held for sale as of the acquisition date (in millions)	
Inventories	\$ 10.4
Property and equipment	28.1
Operating lease assets	1.7
Goodwill	15.1
Total other assets classified as held for sale	\$ 55.3
Prime liabilities classified as held for sale as of the acquisition date (in millions)	
Operating lease liabilities	\$ 1.7

The Company's Condensed Consolidated Statement of Operations included revenues attributable to Prime for the three and nine months ended September 30, 2022, of \$448.0 million and \$1.3 billion, respectively, and net income attributable to Prime for the three and nine months ended September 30, 2022 of \$34.2 million and \$89.0 million, respectively. These revenue and net income amounts attributable to Prime include amounts up to the date of disposal, from certain stores which have been disposed of since the date of the Prime Acquisition.

Other Acquisitions

During the nine months ended September 30, 2022, the Company acquired five dealerships and a collision center in the U.S. Aggregate consideration paid for these dealerships, which were accounted for as business combinations, was \$393.0 million, net of cash acquired. Goodwill and franchise rights intangibles associated with these acquisitions totaled \$194.0 million and \$93.4 million, respectively.

During the nine months ended September 30, 2022, the Company acquired a dealership and related collision center in the U.K. Consideration paid, which was accounted for as a business combination, was \$32.8 million, net of cash acquired. Goodwill associated with the acquisition totaled \$9.2 million. The accounting for the U.K. acquisition is considered to be preliminary, as the acquisition was announced on September 6, 2022. The Company is continuing to analyze and assess relevant information related to the valuation of property, equipment and intangible assets. Due to the recent timing of the U.K. acquisition, the related amounts are provisional and subject to change as the Company's fair value assessments are finalized. The Company will reflect any such adjustments in subsequent filings with the SEC.

During the nine months ended September 30, 2021, the Company acquired two dealerships in the U.S. and seven dealerships in the U.K. Aggregate consideration paid for these dealerships, which were accounted for as business combinations, was \$74.6 million, net of cash acquired. Goodwill associated with these acquisitions totaled \$41.4 million.

4. DISCONTINUED OPERATIONS AND OTHER DIVESTITURES

Brazil Discontinued Operations

On November 12, 2021, the Company entered into an agreement to effect the Brazil Disposal. The sale price of approximately BRL 510.0 million included a holdback amount as of the Brazil Disposition Date (as defined herein), for general representations and warranties, of BRL 115.0 million, to be held in escrow for a period of five years from the close of the transaction (the "Brazil Disposal Escrow"). At the conclusion of the five-year period, the remaining funds held in the Brazil Disposal Escrow will be released to the Company. This amount has been included in the proceeds received.

On July 1, 2022 ("Brazil Disposition Date"), the Company closed on the Brazil Disposal. During the fourth quarter of 2021, the Company recognized a net loss of \$77.5 million on the Brazil Disposal. During the three and nine months ended September 30, 2022, the Company recognized additional net losses of \$3.7 million and \$10.0 million on the disposal of the Brazil Disposal Group.

Upon sale of a foreign entity, amounts recorded within *Accumulated Other Comprehensive Income (loss)* ("AOCI") on the Condensed Consolidated Balance Sheets, are required to be reclassified into earnings on the date of disposition. For purposes of determining the net gain or loss on the Brazil Disposal, the Company included the currency translation adjustments recorded in *AOCI* as a loss of \$122.8 million attributable to the Brazil Disposal Group. The loss on sale indicated an impairment of assets, however, the loss was entirely the result of the reclassification of the translation adjustment from *AOCI*. Prior to the Brazil Disposition Date, the Company recorded a valuation allowance against the assets held for sale for the Brazil Disposal to reflect the expected loss not attributable to a particular asset within the Brazil Disposal Group. On and following the Brazil Disposition Date, the Company reclassified into earnings the currency translation loss attributable to the Brazil Disposal Group. The currency translation loss was offset by the reversal of the previously recorded valuation allowance.

In addition, the purchase price of the Brazil Disposal is denominated in BRL, which is subject to foreign currency exchange risk. In order to partially mitigate this risk, the Company entered into a foreign currency derivative for the conversion of BRL to USD in the form of a costless collar which protects the Company from significant downside exposure on \$70.0 million of the expected purchase consideration. Losses associated with the foreign currency derivative are presented as estimated incremental costs to sell in the table above and are fully offset by corresponding foreign currency impacts to the estimated fair value of proceeds from the disposition. On June 30, 2022, the Company settled the foreign currency derivative for a loss of \$8.4 million.

During the three months ended September 30, 2022, the Company received additional proceeds for final working capital adjustments related to the Brazil Disposal of \$4.1 million. The resulting gain was recognized within Discontinued Operations and included within the net loss recorded during the three months ended September 30, 2022, as described above.

Additionally, during the three months ended September 30, 2022, the Buyer, with approval by the Company, entered into a tax settlement associated with the Brazil Disposal with the Brazilian tax authority for BRL 23.0 million or approximately \$4.5 million. The settlement was accrued within *Accrued expenses and other current liabilities* on the Condensed Consolidated Balance Sheet and recorded as *Provision for income taxes* within Discontinued Operations and included within the net loss recorded during the three months ended September 30, 2022, as described above. The settlement will be paid out of the existing Brazil Disposal Escrow balance within one year.

As of September 30, 2022, the Company had a remaining receivable balance of \$21.8 million associated with the Brazil Disposal Escrow recorded in *Other long-term assets* on the Condensed Consolidated Balance Sheet, of which \$7.5 million is expected to be paid to settle the Company's portion of accrued liabilities retained subsequent to the Brazil Disposition Date, including the tax settlement described above.

The following table summarizes the fair value of the proceeds received from the disposition and net carrying value of the assets disposed as of September 30, 2022 (in millions):

Fair value of proceeds from disposition	\$ 92.5
Net assets disposed	48.8
Gain before currency translation adjustments	43.7
Amount of currency translation loss recorded in AOCI	(122.8)
Incremental costs to sell	 8.4
Net loss on the Brazil Disposal	\$ (87.5)

⁽¹⁾ For additional details on current assets and current liabilities classified as held for sale in connection with the Prime Acquisition as of the acquisition date, refer to Note 3. Acquisitions.

Other Divestitures

The Company's dispositions generally consist of dealership assets and related real estate. Gains and losses on dispositions are recorded in *Selling, general and administrative expenses* in the Condensed Consolidated Statements of Operations.

During the nine months ended September 30, 2022, the Company recorded a net pre-tax gain totaling \$31.3 million related to the disposition of five dealerships representing five franchises in the U.S. The dispositions reduced goodwill by \$36.9 million. The Company also terminated one franchise representing one dealership in the U.K.

⁽²⁾ Includes \$11.3 million and \$9.9 million of goodwill reclassified to assets held for sale as of September 30, 2022 and December 31, 2021, respectively.

During the nine months ended September 30, 2021, the Company recorded a net pre-tax gain totaling \$1.8 million related to the disposition of two dealerships representing two franchises and one franchise within an existing dealership in the U.S. The dispositions reduced goodwill by \$2.2 million. The Company also terminated one franchise representing one dealership in the U.K.

5. SEGMENT INFORMATION

As of September 30, 2022, the Company had two reportable segments: the U.S. and the U.K. The Company defines its segments as those operations whose results the Company's Chief Executive Officer, who is the chief operating decision maker, regularly reviews to analyze performance and allocate resources. Each segment is comprised of retail automotive franchises that sell new and used cars and light trucks; arrange related vehicle financing; sell service and insurance contracts; provide automotive maintenance and repair services; and sell vehicle parts.

Selected reportable segment data is as follows for the three and nine months ended September 30, 2022 and 2021 (in millions):

Three Months Ended September 30, 2022

	U.S.		U.K.		Total	U.S.		U.K.		Total

Nine Months Ended September 30, 2022

6. EARNINGS PER SHARE

The two-class method is utilized for the computation of the Company's EPS. The two-class method requires a portion of net income to be allocated to participating securities, which are unvested awards of share-based payments with non-forfeitable rights to receive dividends that are paid in cash. The Company's RSAs are participating securities. Income allocated to these participating securities is excluded from net earnings available to common shares, as shown in the table below. Basic EPS is computed by dividing net income available to basic common shares by the weighted average number of basic common shares outstanding during the period. Diluted EPS is computed by dividing net income available to diluted common shares by the weighted average number of dilutive common shares outstanding during the period.

The following table sets forth the calculation of EPS on total net income for the three and nine months ended September 30, 2022 and 2021 (in millions, except share and per share data):

	Three Months Ended September 30,			Nine Months End	ded September 30,	
	 2022		2021	 2022		2021
Weighted average basic common shares outstanding	15,189,333		17,753,957	15,886,739		17,753,042
Dilutive effect of stock-based awards and employee stock purchases	 59,115		82,298	57,145		76,940
Weighted average dilutive common shares outstanding	15,248,448		17,836,255	15,943,883		17,829,982
Basic:	 					
Net income	\$ 195.7	\$	172.1	\$ 594.6	\$	465.0
Less: Earnings allocated to participating securities from continued operations	5.5		5.7	16.8		15.6
Less: (Loss) earnings allocated to participating securities from discontinued operations	_		_	(0.1)		0.1

Diluted earnings per common share	\$ 12.48	\$	9.33	\$ 36.25	\$	25.21

7. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS

Accounting standards define fair value as the price that would be received from selling an asset or paid to transfer a liability in the most advantageous market in an orderly transaction between market participants at the measurement date. Accounting standards establish a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value and also establishes the following three levels of inputs that may be used to measure fair value:

- Level 1 Quoted prices for identical assets or liabilities in active markets.
- Level 2 Observable inputs other than Level 1 prices such as quoted prices for similar assets and liabilities; quoted prices in markets that are not active; or model-derived valuations or other inputs that are observable or that can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Cash and Cash Equivalents, Contracts-In-Transit and Vehicle Receivables, Accounts and Notes Receivable, Accounts Payable, Variable Rate Long-Term Debt and Floorplan Notes Payable

The fair values of these financial instruments approximate their carrying values due to the short-term nature of the instruments and/or the existence of variable interest rates.

Fixed Rate Long-Term Debt

The Company estimates the fair value of its \$750.0 million 4.00% Senior Notes due August 2028 ("4.00% Senior Notes") using quoted prices for the identical liability (Level 1) and estimates the fair value of its fixed-rate mortgage facilities using a present value technique based on current market interest rates for similar types of financial instruments (Level 2). Refer to Note 9. Debt for further discussion of the Company's long-term debt arrangements.

The carrying value and fair value of the Company's 4.00% Senior Notes and fixed rate mortgages were as follows (in millions):

		Septembe	, 2022	December 31, 2021				
	Carr	ying Value (1)		Fair Value		Carrying Value (1)		Fair Value
4.00% Senior Notes	\$	750.0	\$	603.5	\$	750.0	\$	748.4
Real estate related		101.2		90.8		81.3		78.7
Total	\$	851.2	\$	694.3	\$	831.3	\$	827.1

⁽¹⁾ Carrying value excludes unamortized debt issuance costs.

Derivative Financial Instruments

The Company holds interest rate swaps to hedge against variability of interest payments indexed to SOFR. The Company's interest rate swaps are measured at fair value utilizing a SOFR forward yield curve matched to the identical maturity term of the instrument being measured. Observable inputs utilized in the income approach valuation technique incorporate identical contractual notional amounts, fixed coupon rates, periodic terms for interest payments and contract maturity. The fair value of the interest rate swaps also considers the credit risk of the Company for instruments in a liability position or the counterparty for instruments in an asset position. The credit risk is calculated using the spread between the SOFR yield curve and the relevant interest rate according to rating agencies. The inputs to the fair value measurements reflect Level 2 of the hierarchy framework.

Assets and liabilities associated with the Company's interest rate swaps, as reflected gross in the Condensed Consolidated Balance Sheets, were as follows (in millions):

	September 30, 2022	December 31, 2021
Assets:		
Other current assets	\$ 0.2	\$ _
Other long-term assets	 115.4	13.8
Total assets	\$ 115.6	\$ 13.8
Liabilities:		
Accrued expenses and other current liabilities	\$ _	\$ 0.1
Other long-term liabilities	_	11.1
Total liabilities	\$ _	\$ 11.2

Interest rate swaps designated as cash flow hedges and the related gains or losses are deferred in stockholders' equity as a component of *AOCI* in the Company's Condensed Consolidated Balance Sheets. The deferred gains or losses are recognized in income in the period in which the related items being hedged are recognized in expense. Monthly contractual settlements of the positions are recognized as *Floorplan interest expense* or *Other interest expense*, *net*, in the Company's Condensed Consolidated Statements of Operations. Gains or losses for periods where future forecasted hedged transactions are deemed probable of not occurring are reclassified from *AOCI* into income as *Floorplan interest expense*.

As of September 30, 2022, the Company held 41 interest rate swaps designated as cash flow hedges with a total notional value of \$949.1 million that fixed its underlying SOFR at a weighted average rate of 1.23%. The Company also held 2 additional interest rate swaps designated as cash flow hedges with forward start dates beginning in December 2023, that had an aggregate notional value of \$100.0 million and a weighted average interest rate of 0.94% as of September 30, 2022. The maturity dates of the Company's designated interest rate swaps with forward start dates range between December 2027 and December 2028. As of September 30, 2021, the Company held 33 interest rate swaps designated as cash flow hedges with a total notional value of \$686.1 million that fixed the underlying one-month LIBOR at a weighted average rate of 1.37%. The Company transitioned from the use of LIBOR to SOFR subsequent to September 30, 2021.

The following tables present the impact of the Company's interest rate swaps designated as cash flow hedges (in millions):

Amount of Unrealized Income (Loss), Net of Tax, Recognized in Other Comprehensive Income
(I and)

	(Luss)									
	Three Months E	nded September 30,	Nine Months Ended September 30,							
Derivatives in Cash Flow Hedging Relationship	2022	2021	2022	2021						
Interest rate swaps	\$ 31.9	\$ (0.6)	\$ 84.8	\$ 16.1						

	Thre	ee Months Ended Sep	tember 30,	Nine Months Ended September 30,				
Statement of Operations Classification		2022	2021	2022	2021			
Floorplan interest expense	\$	0.7 \$	(1.4) \$	(1.4)	(5.0)			
Other interest expense, net	\$	1.2 \$	(1.0) \$	(0.7) §	\$ (2.9)			

The amount of gain expected to be reclassified out of AOCI into earnings as an offset to Floorplan interest expense or Other interest expense, net in the next twelve months is \$24.0 million.

8. RECEIVABLES, NET AND CONTRACT ASSETS

The Company's receivables, net and contract assets consisted of the following (in millions):

	Septem	ber 30, 2022	Decer	mber 31, 2021
Contracts-in-transit and vehicle receivables, net:				
Contracts-in-transit	\$	132.7	\$	143.8

Finance leases		174.5		172.7		
Other		20.9		166.9		
Total other debt		1,003.0		967.4		
Total debt		1,953.0		2,046.7		
Less: unamortized debt issuance costs		10.7		11.0		
Less: current maturities		141.5		220.4		
Total long-term debt	\$	1,800.9	\$	1,815.3		

Acquisition Line

The proceeds of the Acquisition Line (as defined in Note 10. Floorplan Notes Payable) are used for working capital, general corporate and acquisition purposes. As of September 30, 2022, borrowings under the Acquisition Line, a component of the Revolving Credit Facility (as defined in Note 10. Floorplan Notes Payable), totaled \$200.0 million. The average interest rate on this facility was 2.90% during the three months ended September 30, 2022.

Real Estate Related

The Company has mortgage loans in the U.S. and the U.K. that are paid in installments. As of September 30, 2022, borrowings outstanding under these facilities totaled \$807.7 million, gross of debt issuance costs, comprised of \$718.7 million in the U.S. and \$89.0 million in the U.K.

Bridge Facility

In connection with the Prime Acquisition, the Company entered into a commitment letter with Wells Fargo Bank ("Bridge Facility") to provide a portion of the debt financing. As of December 31, 2021, borrowings outstanding under the Bridge Facility totaled \$140.0 million, and is reflected within Other, under Other Debt in the table above, and reflected within current maturities. During the three months ended March 31, 2022, the Company paid off the total outstanding borrowings under the Bridge Facility of \$140.0 million.

10. FLOORPLAN NOTES PAYABLE

The Company's floorplan notes payable consisted of the following (in millions):

	September 30, 2022	December 31, 2021
Revolving Credit Facility — floorplan notes payable	702.3	\$ 511.7
Revolving Credit Facility — floorplan notes payable offset account	(206.1)	(268.6)
Revolving Credit Facility — floorplan notes payable, net	496.2	243.1
Other non-manufacturer facilities	45.8	51.9
Floorplan notes payable — credit facility and other, net	542.0	\$ 295.0
FMCC Facility	31.4	\$ 22.8
FMCC Facility offset account	(12.4)	(3.3)
FMCC Facility, net	19.0	19.5
Other manufacturer affiliate facilities	184.9	216.5
Floorplan notes payable — manufacturer affiliates, net	3 203.9	\$ 236.0

Floorplan Notes Payable — Credit Facility

Revolving Credit Facility

On March 9, 2022, in the U.S., the Company entered into an amended revolving syndicated credit arrangement with 21 participating financial institutions that matures on March 9, 2027 ("Revolving Credit Facility"). On August 18, 2022, the company entered into a first amendment on the twelfth amended Revolving Credit Facility. In addition to extending the term, the amendment increases the availability to \$2.0 billion, with the ability to increase to \$2.4 billion, as further described below. The Revolving Credit Facility currently consists of two tranches: (i) a \$1.2 billion maximum capacity tranche for U.S. vehicle inventory floorplan financing ("U.S. Floorplan Line") which the outstanding balance, net of offset account discussed below, is reported in *Floorplan notes payable*— *credit facility and other, net*; and (ii) an \$800.0 million maximum capacity tranche ("Acquisition Line"), which is not due until maturity of the Revolving Credit Facility and is therefore classified in *Long-term debt* on the Condensed Consolidated Balance Sheets — refer to Note 9. Debt for additional discussion. The capacity under these two tranches can be re-designated within the overall \$2.0 billion commitment. The Acquisition Line includes a \$100.0 million sub-limit for letters of credit and \$50.0 million minimum capacity tranche. The Company had \$12.2 million in letters of credit outstanding as of both September 30, 2022 and December 31, 2021.

The U.S. Floorplan Line bears interest at rates equal to SOFR plus 120 basis points for new vehicle inventory and SOFR plus 150 basis points for used vehicle inventory. The weighted average interest rate on the U.S. Floorplan Line was 4.25% as of September 30, 2022, excluding the impact of the Company's interest rate swap derivative instruments. The Acquisition Line bears interest at SOFR or a SOFR equivalent plus 110 to 210 basis points, depending on the Company's total adjusted leverage ratio, on borrowings in USD, Euros or GBP. The U.S. Floorplan Line requires a commitment fee of 0.15% per annum on the unused portion. Amounts borrowed by the Company under the U.S. Floorplan Line for specific vehicle inventory are to be repaid upon the sale of the vehicle financed and in no case is a borrowing for a vehicle to remain outstanding for greater than one year. The Acquisition Line requires a commitment fee ranging from 0.15% to 0.40% per annum, depending on the Company's total adjusted leverage ratio, based on a minimum commitment of \$50.0 million less outstanding borrowings.

In conjunction with the amendment to the Revolving Credit Facility described above, the Company incurred \$3.7 million in additional debt issuance costs. The Company had \$5.3 million and \$2.6 million of related unamortized debt issuance costs as of September 30, 2022 and December 31, 2021, respectively, which are included in *Prepaid expenses* and *Other long-term assets* in the Company's Condensed Consolidated Balance Sheets and amortized over the term of the facility.

Floorplan Notes Payable — Manufacturer Affiliates

FMCC Facility

The Company has a \$300.0 million floorplan arrangement with FMCC for financing of new Ford vehicles in the U.S. (the "FMCC Facility"). This facility bears interest at the U.S. prime rate which was 6.25% as of September 30, 2022.

Other Manufacturer Facilities

The Company has other credit facilities in the U.S. and the U.K. with financial institutions affiliated with manufacturers for financing of new, used and rental vehicle inventories. As of September 30, 2022, borrowings outstanding under these facilities totaled \$184.9 million, comprised of \$104.4 million in the U.S., with annual interest rates ranging from less than 1% to approximately 7%, and \$80.5 million in the U.K., with annual interest rates ranging from approximately 2% to 6%.

Offset Accounts

Offset accounts consist of immediately available cash used to pay down the U.S. Floorplan Line and FMCC Facility, and therefore offset the respective outstanding balances in the Company's Condensed Consolidated Balance Sheets. The offset accounts are the Company's primary options for the short-term investment of excess cash.

11. CASH FLOW INFORMATION

Non-Cash Activities

The accrual for capital expenditures increased \$0.4 million and \$2.1 million during the nine months ended September 30, 2022 and 2021, respectively.

Interest and Income Taxes Paid

Cash paid for interest, including the monthly settlement of the Company's interest rate swaps, was \$73.8 million and \$59.9 million for the nine months ended September 30, 2022 and 2021, respectively. Refer to Note 7. Financial Instruments and Fair Value Measurements for further discussion of the Company's interest rate swaps.

Cash paid for income taxes, net of refunds, was \$155.9 million and \$100.7 million for the nine months ended September 30, 2022 and 2021, respectively.

12. COMMITMENTS AND CONTINGENCIES

From time to time, the Company's dealerships are named in various types of litigation involving customer claims, employment matters, class action claims, purported class action claims, claims involving the manufacturers of automobiles, contractual disputes, vehicle related incidents and other matters arising in the ordinary course of business. The Company may be involved in legal proceedings or suffer losses that could have a material adverse effect on the Company's results of operations, financial condition or cash flows. In the normal course of business, the Company is required to respond to customer, employee and other third-party complaints. In addition, the manufacturers of the vehicles that the Company sells and services have audit rights allowing them to review the validity of amounts claimed for incentive, rebate or warranty-related items and charge the Company back for amounts determined to be invalid payments under the manufacturers' programs, subject to the Company's right to appeal any such decision.

Legal Proceedings

As of September 30, 2022, the Company was not party to any legal proceedings that, individually or in the aggregate, are reasonably expected to have a material adverse effect on the Company's results of operations, financial condition or cash flows. However, the results of current or future matters cannot be predicted with certainty; an unfavorable resolution of one or more of such matters could have a material adverse effect on the Company's results of operations, financial condition or cash flows.

Other Matters

In connection with dealership dispositions where the Company did not own the real estate and was a tenant, it assigned the lease to the purchaser but remained liable as a guarantor for the remaining lease payments in the event of non-payment by the purchaser. Although the Company has no reason to believe that it will be called upon to perform under any such assigned leases, the Company estimates that lessee remaining rental obligations were \$38.0 million as of September 30, 2022. In certain instances, the Company obtains collateral support for the rental obligations that the Company remains obligated for upon sale of a dealership to a lessee. Total associated letters of credit issued on behalf of the lessee where the Company is the beneficiary was \$2.9 million as of September 30, 2022.

13. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

Changes in the balances of each component of Accumulated other comprehensive income (loss) were as follows (in millions):

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis of Financial Condition and Results of Operations, or MD&A, should be read in conjunction with the accompanying unaudited Condensed Consolidated Financial Statements and the notes thereto, as well as our 2021 Form 10-K.

Unless the context requires otherwise, references to "we," "us" and "our" are intended to mean the business and operations of Group 1 Automotive, Inc. and its subsidiaries.

Overview

We are a leading operator in the automotive retail industry. Through our omni-channel platform, we sell new and used cars and light trucks; arrange related vehicle financing; sell service and insurance contracts; provide automotive maintenance and repair services; and sell vehicle parts. We operate in geographically diverse markets that extend across 17 states in the U.S. and 35 towns and cities in the U.K. As of September 30, 2022, our retail network consisted of 148 dealerships in the U.S. and 55 dealerships in the U.K.

On November 12, 2021, we entered into a Share Purchase Agreement (the "Brazil Agreement") with Original Holdings S.A. ("Buyer"). Pursuant to the terms and conditions set forth in the Brazil Agreement, Buyer agreed to acquire 100% of the issued and outstanding equity interests of our Brazilian operations (the "Brazil Disposal Group") for approximately BRL 510 million in cash (the "Brazil Disposal"). The Brazil Disposal Group met the criteria to be reported as discontinued operations. Therefore, the related assets, liabilities and operating results of the Brazil Disposal Group are reported as discontinued operations (the "Brazil Discontinued Operations") for all periods presented. On July 1, 2022, we completed the Brazil Disposal. Refer to Note 4. Discontinued Operations and Other Divestitures within our Notes to Condensed Consolidated Financial Statements, for additional information.

Recent Events

Our manufacturers' production continues at reduced levels as a result of global semiconductor and other parts shortages, which is impacting new vehicle unit sales in all our markets. Conversely, the shortage of new vehicles has led to sharply higher new vehicle sales prices and gross margins. Our new vehicle days' supply of inventory was approximately 16 days as of the quarter ended September 30, 2022 ("Current Quarter"), as compared to 13 days as of the quarter ended September 30, 2021 ("Prior Year Quarter").

In August 2022, we announced certain upcoming management changes, including the retirement of our Chief Executive Officer Earl J. Hesterberg, effective as of December 31, 2022, and the promotion of Daryl Kenningham to succeed Mr. Hesterberg, effective January 1, 2023. Please see our Current Report on Form 8-K, filed with the SEC on August 24, 2022, for additional information.

On February 24, 2022, Russia launched a military invasion of Ukraine (the "Russia and Ukraine Conflict"). The ongoing Russia and Ukraine Conflict has provoked strong reactions from the U.S., the U.K., the European Union and various other countries around the world, including the imposition of broad financial and economic sanctions against Russia. While the length, impact and outcome of the ongoing military conflict and these sanctions on the Russian and global economies remain uncertain, they have already resulted in significant volatility in financial markets, an increase in energy and commodity prices globally and further disruption of the global supply chain for certain raw materials and manufactured goods, including vehicle parts.

The Russia and Ukraine Conflict and other geopolitical conflicts, as well as related international responses, have exacerbated inflationary pressures, including causing increases in the prices for goods and services and global supply chain disruptions, which have resulted and may continue to result in shortages in materials and services. Such shortages have resulted and may continue to result in inflationary cost increases for labor, fuel, materials and services, and could continue to cause costs to increase as well as result in the scarcity of certain materials. In particular, the Russia and Ukraine Conflict has further impacted the ability of certain OEMs to produce new vehicles and new vehicle parts, which may result in continued disruptions to the supply of new and used vehicles.

During the nine months ended September 30, 2022 ("Current Year"), the global economy experienced rising inflation and an increase in gasoline and energy prices. In response to inflationary pressures and macroeconomic conditions, the U.S. Federal Reserve, along with other central banks, including in the U.K., continued to increase interest rates throughout 2022. Additionally, U.S. Gross Domestic Product ("GDP") shrank for the second consecutive quarter as of the quarter ended June 30,2022, indicating that the U.S. economy may be entering a recession. The impact of these macroeconomic developments on our operations cannot be predicted with certainty.

Table of Contents

In addition to the macroeconomic issues described above, the U.K. faces additional political and economic uncertainty as a result of recent leadership changes in the country's government. This uncertainty has led to increased foreign currency exchange rate volatility for the country's currency. During the Current Quarter, the GBP to USD foreign currency exchange rate has declined 8.3% from £1 to \$1.21 at June 30, 2022, to £1 to \$1.11 at September 30, 2022, and as compared to the Prior Year Quarter, the GBP to USD foreign currency exchange rate has declined 17.3%, from £1 to \$1.35 at September 30, 2021, to £1 to \$1.11 at September 30, 2022.

Critical Accounting Policies and Accounting Estimates

For discussion of our critical accounting policies and accounting estimates, refer to Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations of our 2021 Form 10-K. There have been no material changes to our critical accounting policies or accounting estimates since December 31, 2021.

Results of Operations

The "same store" amounts presented below include the results of dealerships and corporate headquarters for the identical months in each comparative period, commencing with the first full month in which we owned the dealership. Amounts related to divestitures are excluded from each comparative period, ending with the last full month in which we owned the dealership. Same store results provide a measurement of our ability to grow revenues and profitability of our existing stores and also provide a metric for peer group comparisons. For these reasons, same store results allow management to manage and monitor the performance of the business and is also useful to investors.

We evaluate our results of operations on both an as reported and a constant currency basis. The constant currency presentation, which is a non-GAAP measure, excludes the impact of fluctuations in foreign currency exchange rates. We believe providing constant currency information provides valuable supplemental information regarding our underlying business and results of operations, consistent with how we evaluate our performance. We calculate constant currency percentages by converting our current period reported results for entities reporting in currencies other than USD using comparative period exchange rates rather than the actual exchange rates in effect during the respective periods. The constant currency performance measures should not be considered a substitute for, or superior to, the measures of financial performance prepared in accordance with U.S. GAAP. Additionally, we caution investors not to place undue reliance on non-GAAP measures, but also to consider them with the most directly comparable U.S. GAAP measures. Our management also uses constant currency and adjusted cash flows from operating, investing and financing activities in conjunction with U.S. GAAP financial measures to assess our business, including communication with our Board of Directors, investors and industry analysts concerning financial performance. We disclose these non-GAAP measures and the related reconciliations because we believe investors use these metrics in evaluating longer-term period-over-period performance. These metrics also allow investors to better understand and evaluate the information used by management to assess operating performance.

Certain amounts in the financial statements may not compute due to rounding. All computations have been calculated using unrounded amounts for all periods presented.

The following tables summarize our operating results on a reported basis and on a same store basis:

Reported Operating Data — Consolidated

(In millions, except unit data)

U.S. Region — Three Months Ended September 30, 2022 Compared to 2021

The following discussion of our U.S. operating results is on an as reported and same store basis. The difference between as reported amounts and same store amounts is related to acquisition and disposition activity, as well as new add-point openings.

Revenues

Total revenues in the U.S. during the Current Quarter increased \$821.9 million, or 30.9%, as compared to the Prior Year Quarter. This increase was driven by the acquisition of stores and higher same store revenues.

Total same store revenues in the U.S. during the Current Quarter increased \$198.6 million, or 7.6%, as compared to Prior Year Quarter. This increase was primarily driven by higher same store revenues from new and used vehicle retail sales, parts and service sales and F&I, net, partially offset by lower same store revenues from used vehicle wholesale sales.

New and used vehicle retail revenues benefited from the sale of approximately 7,700 units from our online digital platform, AcceleRide®, during the Current Quarter, representing a 47.0% increase as compared to the Prior Year Quarter.

New vehicle retail same store revenues outperformed the Prior Year Quarter. A shortage in new vehicle supply continued to drive strong pricing in the Current Quarter, mitigating the modestly lower new vehicle retail unit sales. Supply chain issues, including an ongoing semiconductor and vehicle parts shortage, and other logistics challenges, continued into the Current Quarter for OEMs, leading to sustained lower vehicle production and deliveries of fewer vehicles to dealerships. We ended the Current Quarter with a U.S. new vehicle inventory supply of 15 days, 4 days higher than the Prior Year Quarter.

Used vehicle retail same store revenues outperformed the Prior Year Quarter, driven by strong used vehicle retail pricing due to increased demand, coupled with a modest increase in retail used vehicle unit sales. Used vehicle wholesale same store revenues underperformed due to a decline in wholesale used vehicle unit sales. We have increased our efforts to sell more used vehicles through retail sales channels rather than the wholesale market as a result of the increased demand and pricing of used vehicle retail sales described above.

Parts and service same store revenues outperformed the Prior Year Quarter, driven by increases across all business lines, reflecting increased business activity and increased same store technician headcount as a result of our technician recruiting and retention efforts providing greater capacity to meet increased demand.

F&I, net same store revenues outperformed the Prior Year Quarter, primarily driven by higher income per contract on finance, VSCs and other product offerings, as well as improved penetration rates on our other product offerings.

Gross Profit

Total gross profit in the U.S. during the Current Quarter increased \$124.3 million, or 23.2%, as compared to the Prior Year Quarter, primarily driven by the acquisition of stores.

Total same store gross profit in the U.S. during the Current Quarter increased \$5.4 million, or 1.0%, as compared to the Prior Year Quarter. This increase was primarily driven by higher same store gross profit from parts and service sales, F&I, net and new vehicle retail sales, partially offset by lower same store gross profit from used vehicle retail and wholesale sales.

New vehicle retail same store gross profit outperformed the Prior Year Quarter, driven by an increase in new vehicle retail same store gross profit per unit sold, partially offset by a modest decrease in same store retail new vehicle unit sales. The increase in new vehicle retail same store gross profit per unit sold reflects the strong demand resulting from the shortage of new vehicle inventory discussed above. The inventory shortage also drove the decrease in same store retail new vehicle unit sales.

Used vehicle retail same store gross profit underperformed the Prior Year Quarter, driven by a decrease in used vehicle retail same store gross profit per unit sold, partially offset by modestly higher same store retail used vehicle unit sales. The decrease in same store used vehicle retail gross profit was driven by inflationary impacts on our used vehicle customers and higher used vehicle acquisition prices.

Our used vehicle wholesale same store gross profit underperformed the Prior Year Quarter, driven by a decrease in used vehicle wholesale same store gross profit per unit sold, coupled with a decrease in used vehicle same store wholesale unit sales. The decreases in wholesale gross profit per unit sold and in wholesale units were driven by efforts to sell more used vehicles through retail sales rather than the wholesale market as described above.

Parts and service same store gross profit outperformed the Prior Year Quarter, as described above for parts and service same store revenues.

F&I, net same store gross profit increased 9.6%, as described above for F&I, net same store revenues.

Total same store gross margin decreased 123 basis points, primarily driven by lower same store used vehicle retail gross margin caused by inflationary impacts on our used vehicle customers and higher used vehicle acquisition prices.

Table of Contents

SG&A Expenses

SG&A as a percentage of gross profit increased 83 and 332 basis points on an as reported and same store basis, respectively, compared to the Prior Year Quarter, primarily driven by increases in SG&A expenses.

Total SG&A expenses in the U.S. during the Current Quarter increased \$77.1 million, or 25.0%, as compared to the Prior Year Quarter, primarily driven by the acquisition of stores. Total same store SG&A expenses in the U.S. during the Current Quarter, increased \$20.7 million, or 6.9%, as compared to the Prior Year Quarter, primarily driven by increased labor costs, favorable non-recurring legal settlements in the Prior Year Quarter, and an increase in other variable expenses associated with the rise in certain business activities described above.

U.S. Region — Nine Months Ended September 30, 2022 Compared to 2021

The following discussion of our U.S. operating results is on an as reported and same store basis. The difference between as reported amounts and same store amounts is related to acquisition and disposition activity, as well as new add-point openings.

Revenues

Total revenues in the U.S. during the Current Year increased \$2.0 billion, or 25.3%, as compared to the same period in 2021 ("Prior Year"), primarily driven by the acquisition of stores.

Total same store revenues in the U.S. during the Current Year increased \$289.7 million, or 3.7%, as compared to the Prior Year. This increase was primarily driven by higher same store revenues from used vehicle retail sales, parts and service sales and F&I, net, partially offset by lower same store revenues from new vehicle retail and used vehicle wholesale sales.

New and used vehicle retail revenues benefited from the sale of approximately 20,300 units from our online digital platform, AcceleRide®, during the Current Year, representing approximately a 36.8% increase as compared to the Prior Year.

New vehicle retail same store revenues underperformed the Prior Year, driven by a shortage in new vehicle supply, leading to fewer unit sales. The shortage of new vehicle inventory continues to drive strong pricing, which partially mitigated the revenue impact of lower new vehicle unit sales. Supply chain issues, including an ongoing semiconductor and vehicle parts shortage, and other logistics challenges, continued into the Current Year for OEMs, leading to sustained lower vehicle production and deliveries of fewer vehicles to dealerships.

Used vehicle retail same store revenues outperformed the Prior Year, despite a modest decline in unit sales, as increased demand drove prices higher. Used vehicle wholesale same store revenues declined primarily driven by a decline in unit sales driven by efforts to sell more used vehicles through retail sales rather than the wholesale market as a result of the increased demand and pricing of used vehicle retail sales described above.

Parts and service same store revenues outperformed the Prior Year, primarily driven by increases in customer pay, wholesale and collision revenues reflecting increased business activity and increased same store technician headcount through our technician recruiting and retention efforts providing greater capacity to meet increased demand. These increases were partially offset by a decrease in warranty revenues, due to fewer new vehicles sold as a result of new vehicle shortages described above.

F&I, net same store revenues outperformed the Prior Year, primarily driven by higher income per contract on finance, VSCs and other product offerings and improved penetration rates, partially offset by a decrease from fewer same store new and used vehicle unit sales.

Gross Profit

Total gross profit in the U.S. during the Current Year increased \$445.1 million, or 29.5%, as compared to the Prior Year, primarily driven by the acquisition of stores and higher same store results.

Total same store gross profit in the U.S. during the Current Year increased \$104.1 million, or 7.0%, as compared to the Prior Year, primarily driven by higher same store gross profit from new vehicle retail sales, parts and service sales and F&I, net.

New vehicle retail same store gross profit outperformed the Prior Year, driven by an increase in new vehicle retail same store gross profit per unit sold, partially offset by a decrease in same store retail new vehicle unit sales. The increase in new vehicle retail same store gross profit per unit sold reflects the strong pricing resulting from the shortage of new vehicle inventory discussed above.

Used vehicle retail same store gross profit underperformed the Prior Year, driven by a decrease in used vehicle retail same store gross profit per unit sold, coupled with a decrease in same store retail used vehicle unit sales. The decrease in same store used vehicle retail gross profit and retail used vehicle unit sales was driven by inflationary impacts on used vehicle customers coupled with higher used vehicle acquisition costs.

Our used vehicle wholesale same store gross profit underperformed the Prior Year, driven by a decrease in used vehicle wholesale same store gross profit per unit sold, coupled with a decrease in same store wholesale used vehicle unit sales. The decrease in used vehicle wholesale gross profit per unit sold and in wholesale used vehicle unit sales was driven by efforts to sell more used vehicles through retail sales rather than the wholesale market as described above.

Parts and service same store gross profit outperformed the Prior Year, as described above for parts and service revenues.

F&I, net same store gross profit outperformed the Prior Year, as described above for F&I, net same store revenues.

Table of Contents

Total same store gross margin increased 60 basis points, primarily driven by higher new vehicle retail sales prices outpacing new vehicle costs of sales. This increase was partially offset by a decrease in same store used vehicle gross margin, driven by inflationary impacts on our used vehicle customers and the ongoing new vehicle supply shortage increasing acquisition costs for used vehicles, as well as a decrease in same store parts and service gross margin primarily due to increased labor costs.

SG&A Expenses

SG&A as a percentage of gross profit declined 51 basis points and increased 126 basis points on an as reported and same store basis, respectively, compared to the Prior Year. The increase in SG&A as a percentage of gross profit on a same store basis was partially driven by the decline in used vehicle same store gross profit described above as well as the following factors impacting total SG&A.

Total SG&A expenses in the U.S. during the Current Year increased \$250.1 million, or 28.3%, as compared to the Prior Year, primarily driven by the acquisition of stores. Total same store SG&A expenses in the U.S. during the Current Year increased \$80.8 million, or 9.3%, as compared to the Prior Year, primarily driven by increased labor costs and an increase in other variable expenses associated with the rise in certain business activities.

U.K. Region — Three Months Ended September 30, 2022 Compared to 2021

The following discussion of our U.K. operating results is on an as reported and same store basis. The difference between as reported amounts and same store amounts is related to acquisition and disposition activity, as well as new add-point openings. The GBP to USD foreign currency exchange rate has fluctuated from £1 to \$1.35 at September 30, 2021, to £1 to \$1.11 at September 30, 2022, or a decline of 17.3%, leading to a decrease in U.K. results when translated from GBP to USD in the Current Quarter when compared to the Prior Year Quarter.

Revenues

Total revenues in the U.K. during the Current Quarter decreased \$71.3 million, or 9.5%, as compared to the Prior Year Quarter. This decrease was primarily driven by the negative impact of foreign currency exchange rates, partially offset by the acquisition of stores.

Total same store revenues in the U.K. during the Current Quarter decreased \$78.7 million, or 10.5%, as compared to the Prior Year Quarter, primarily driven by the negative impact of foreign currency exchange rates. On a constant currency basis, total same store revenues increased 5.2%, driven by outperformances across all revenue streams except used vehicle retail and wholesale sales.

New vehicle retail same store revenues, on a constant currency basis, outperformed the Prior Year Quarter. A shortage in new vehicle supply continues to drive strong pricing on a constant currency basis. Supply chain issues, including an ongoing semiconductor and vehicle parts shortage, and other logistics challenges, continued into the Current Quarter for OEMs, leading to sustained lower vehicle production and deliveries of fewer vehicles to dealerships. We ended the Current Quarter with a U.K. new vehicle inventory supply of 20 days, which is consistent with the Prior Year Quarter's new inventory supply of 19 days.

Used vehicle retail same store revenues, on a constant currency basis, underperformed the Prior Year Quarter due to a decline in retail used vehicle unit sales, driven by inflationary impacts on our used vehicle customers and the ongoing new vehicle supply shortage impacting the supply of used vehicles, partially offset by a higher average sales price on a constant currency basis.

Parts and service same store revenues, on a constant currency basis, outperformed the Prior Year Quarter, driven by increases in all of our parts and service business lines reflecting higher business activity as compared to the Prior Year Quarter.

F&I, net same store revenues, on a constant currency basis, outperformed the Prior Year Quarter, driven by improved penetration rates on the majority of our products and higher income per contract on finance and VSCs, partially offset by fewer retail used vehicles sold in the Current Quarter.

Gross Profit

Total gross profit in the U.K. during the Current Quarter decreased \$10.3 million, or 10.0%, as compared to the Prior Year Quarter, primarily driven by the negative impact of foreign currency exchange rates.

Total same store gross profit in the U.K. during the Current Quarter decreased \$11.1 million, or 10.9%, as compared to the Prior Year Quarter. On a constant currency basis, total same store gross profit increased 5.0%, primarily driven by improvements in gross profit from new vehicle retail sales, parts and service sales and F&I, net.

New vehicle retail same store gross profit, on a constant currency basis, outperformed the Prior Year Quarter, driven by an increase in new vehicle retail same store gross profit per unit, resulting from increased prices as discussed above.

Used vehicle retail same store gross profit, on a constant currency basis, underperformed the Prior Year Quarter, driven by a decrease in same store used vehicle retail gross profit per unit sold, coupled with fewer same store retail used vehicle unit sales. The decrease in same store used vehicle retail gross profit and retail used vehicle unit sales was driven by inflationary impacts on customers, coupled with the ongoing new vehicle supply shortage impacting the supply of used vehicles.

Parts and service same store gross profit, on a constant currency basis, outperformed the Prior Year Quarter, driven by the increases in our parts and service business activities discussed above.

F&I, net same store gross profit, on a constant currency basis, outperformed the Prior Year Quarter as described above for F&I, net same store revenues.

Total same store gross margin in the U.K. decreased 5 basis points, primarily driven by lower same store used vehicle retail gross margin caused by inflationary impacts on our used vehicle customers and the ongoing new vehicle supply shortage impacting the supply of used vehicles, and lower parts and service gross margin caused by increased labor costs.

Table of Contents

SG&A Expenses

SG&A as a percentage of gross profit increased 459 and 484 basis points, on an as reported and same store basis, respectively, compared to the Prior Year Quarter, primarily driven by the decline in used vehicle retail and parts and service gross profit as described above, as well as the factors below impacting SG&A.

Total SG&A expenses in the U.K. during the Current Quarter decreased \$2.5 million, or 3.6%, as compared to the Prior Year Quarter. Total same store SG&A expenses in the U.K. during the Current Quarter decreased \$2.8 million, or 4.2%, as compared to the Prior Year Quarter. These decreases were primarily driven by the impact of foreign currency exchange rates. On a constant currency basis, total same store SG&A expenses increased 12.4%, primarily driven by increased labor costs, an increase in other variable expenses associated with the rise in certain business activities, including costs associated with recent acquisitions, and Prior Year government COVID-19 assistance, inclusive of the temporary suspension of city tax, which did not recur in the Current Year.

U.K. Region — Nine Months Ended September 30, 2022 Compared to 2021

The following discussion of our U.K. operating results is on an as reported and same store basis. The difference between as reported amounts and same store amounts is related to acquisition and disposition activity, as well as new add-point openings. At the end of 2020, the U.K. experienced a surge in COVID-19 cases, which led to a government-mandated closure of all non-essential businesses beginning January 4, 2021 through April 12, 2021. In mid-April 2021, the COVID-19 restrictions affecting our U.K. dealership showrooms were lifted, and our dealerships were able to reopen.

Revenues

Total revenues in the U.K. during the Current Year increased \$139.6 million, or 7.0%, as compared to the Prior Year, primarily driven by the acquisition of stores, partially offset by the negative impact of foreign currency exchange rates.

Total same store revenues in the U.K. during the Current Year decreased \$4.8 million, or 0.2%, as compared to the Prior Year, driven by the negative impact of foreign currency exchange rates. On a constant currency basis, total same store revenues increased 10.4%, driven by outperformances across all revenue streams.

New vehicle retail same store revenues, on a constant currency basis, outperformed the Prior Year, driven by increased sales prices, partially offset by a modest decrease in same store retail new vehicle unit sales. Supply chain issues, including an ongoing semiconductor and vehicle parts shortage, and other logistics challenges continue for OEMs, leading to sustained lower vehicle production and deliveries of fewer vehicles to dealerships. The increase in the new vehicle retail same store average sales price per unit sold was driven by both new vehicle shortages, as described above, and strong vehicle demand, which was pent-up over past years due to Brexit and the COVID-19 pandemic.

Used vehicle retail same store revenues, on a constant currency basis, outperformed the Prior Year, despite a modest decline in retail used vehicle unit sales, as increased demand drove higher prices.

Parts and service same store revenues, on a constant currency basis, outperformed the Prior Year, driven by increased business activity across all of our parts and service business lines with the reduction of COVID-19 restrictions compared to the Prior Year.

F&I, net same store revenues, on a constant currency basis, outperformed the Prior Year, driven by improved penetration rates on all finance and other products and higher income per contract for finance and VSCs, partially offset by a decline in same store new and used vehicle retail unit sales.

Gross Profit

Total gross profit in the U.K. during the Current Year increased \$31.2 million, or 12.1%, as compared to the Prior Year, primarily driven by the acquisition of stores and higher same store results.

Total same store gross profit in the U.K. during the Current Year increased \$13.2 million, or 5.2%, as compared to the Prior Year. On a constant currency basis, total same store gross profit increased 16.5%, driven by improvements in new vehicle retail sales, parts and service sales and F&I, net.

New vehicle retail same store gross profit, on a constant currency basis, outperformed the Prior Year, due to an increase in new vehicle retail same store gross profit per unit sold, resulting from increased prices as discussed above, partially offset by a modest decline in same store retail new vehicle unit sales.

Used vehicle retail same store gross profit, on a constant currency basis, underperformed the Prior Year, due to a decrease in used vehicle retail same store gross profit per unit sold, coupled with a decrease in same store retail used vehicle unit sales. These decreases were driven by inflationary impacts on customers coupled with the ongoing new vehicle supply shortage impacting the supply of used vehicles.

Parts and service same store gross profit, on a constant currency basis, outperformed the Prior Year, driven by the increases in parts and service same store revenues.

F&I, net same store gross profit, on a constant currency basis, outperformed the Prior Year as described above in F&I, net same store revenues.

Total same store gross margin in the U.K. increased 69 basis points, driven by improvements in new vehicle retail gross margin due to higher prices from increased customer demand and vehicle supply constraints. The increase was partially offset by a decrease in same store total used vehicle retail gross margin, resulting from inflationary impacts on our used vehicle customers and the ongoing new vehicle supply shortage increasing acquisition costs for used vehicles.

SG&A Expenses

SG&A as a percentage of gross profit increased 82 and 211 basis points on an as reported and same store basis, respectively, compared to the Prior Year.

Table of Contents

Total SG&A expenses in the U.K. during the Current Year increased \$23.3 million, or 13.4%, as compared to the Prior Year, primarily driven by increases in same store SG&A and the acquisition of stores. Total same store SG&A expenses in the U.K. during the Current Year increased \$14.4 million, or 8.5%, as compared to the Prior Year. On a constant currency basis, total same store SG&A expenses increased 20.0%. These increases were primarily driven by higher business activity and acquisition costs compared to the Prior Year, as well as government COVID-19 assistance and the related temporary suspension of city tax in the Prior Year which did not recur in the Current Year.

Consolidated Selected Comparisons — Three and Nine Months Ended September 30, 2022 Compared to 2021

The following tables (in millions) and discussion of our results of operations are on a consolidated basis, unless otherwise noted.

	Three Months Ended September 30,									
	2022		2021	Incre	ase/ (Decrease)	% Change				
Depreciation and amortization expense	\$ 21.8	\$	19.2	\$	2.6	13.5 %				
Floorplan interest expense	\$ 6.5	\$	4.3	\$	2.2	50.1 %				
Other interest expense, net	\$ 19.6	\$	13.1	\$	6.5	49.9 %				
Provision for income taxes	\$ 60.2	\$	51.6	\$	8.6	16.6 %				

	Nine Months Ended September 30,									
	 2022		2021	In	crease/ (Decrease)	% Change				
Depreciation and amortization expense	\$ 65.9	\$	56.8	\$	9.1	16.1 %				
Floorplan interest expense	\$ 17.7	\$	20.5	\$	(2.8)	(13.7)%				
Other interest expense, net	\$ 55.5	\$	39.8	\$	15.7	39.5 %				
Provision for income taxes	\$ 182.1	\$	132.2	\$	50.0	37.8 %				

Depreciation and Amortization Expense

Total depreciation and amortization expense for both the Current Quarter and Current Year, was higher compared to the Prior Year Quarter and Prior Year, primarily attributable to acquired property and equipment in our U.S. region, as we continue to strategically add dealership related real estate to our investment portfolio and make improvements to our existing facilities intended to enhance the profitability of our dealerships and the overall customer experience.

Floorplan Interest Expense

Our floorplan interest expense fluctuates with changes in our outstanding borrowings and associated interest rates, which are based on SOFR, the U.S. prime rate or a benchmark rate. Outstanding borrowings largely fluctuate based on our levels of new and used vehicle inventory. To mitigate the impact of interest rate fluctuations, we employ an interest rate hedging strategy, whereby we swap variable interest rate exposure on a portion of our borrowings for a fixed interest rate.

Total floorplan interest expense during the Current Quarter, increased \$2.2 million, or 50.1%, as compared to the Prior Year Quarter, driven primarily by higher new and used vehicle inventories in the Current Quarter, resulting in additional floorplan interest expense, and an unrealized gain on interest rate swaps of \$0.9 million in the Prior Year Quarter which did not recur in the Current Quarter.

For the Current Year, floorplan interest expense decreased \$2.8 million, or 13.7%, as compared to the Prior Year, driven primarily by lower realized losses on our interest rate swap portfolio in the current year, due to increases in corresponding interest rates and an unrealized loss on interest rate swaps of \$1.4 million in the Prior Year which did not recur in the Current Year. These decreases were partially offset by an increase in floorplan interest expense on used vehicles due to an increase in used vehicle inventories between periods.

Refer to Note 7. Financial Instruments and Fair Value Measurements within our Notes to Condensed Consolidated Financial Statements for additional discussion of interest rate swaps.

Other Interest Expense, Net

Other interest expense, net consists of interest charges primarily on our 4.00% Senior Notes, real estate related debt and other debt, partially offset by interest income.

Other interest expense, net during the Current Quarter, increased \$6.5 million, or 49.9%, as compared to the Prior Year Quarter. For the Current Year, other interest expense, net, increased \$15.7 million, or 39.5%, as compared to the Prior Year. The increase in other interest expense, net during the Current Quarter and Current Year, was primarily attributable to the additional 4.00% Senior Notes issued in October 2021 and an increase in borrowings used to acquire property in our U.S. region, primarily related to the Prime Acquisition. Refer to Note 9. Debt within our Notes to Condensed Consolidated Financial Statements for additional discussion of our debt.

Provision for Income Taxes

Provision for income taxes of \$60.2 million during the Current Quarter increased by \$8.6 million, or 16.6%, as compared to the Prior Year Quarter. For the Current Year, our provision for income taxes of \$182.1 million increased by \$50.0 million, or 37.8%, as compared to the Prior Year. The tax expense increases in the Current Quarter and Current Year, as compared to the Prior Year, were primarily due to higher pre-tax book income. Our Current Quarter effective tax rate increased to 23.4% from 23.0%, as compared to the Prior Year Quarter. The tax rate increase was primarily due to the increase of state income tax expense due to the mix of domestic earnings following the Prime Acquisition, partially offset by tax benefits from an increase in foreign earnings taxed at lower rates in the Current Quarter as compared to the Prior Year Quarter.

We expect our effective tax rate for the remainder of 2022 to be between 23.5 % and 24.0%. We believe that it is more-likely-than-not that our deferred tax assets, net of valuation allowances provided, will be realized, based primarily on assumptions of our future taxable income, considering future reversals of existing taxable temporary differences.

Liquidity and Capital Resources

Our liquidity and capital resources are primarily derived from cash on hand, cash temporarily invested as a pay down of our U.S. Floorplan Line and FMCC Facility levels (refer to Note 10. Floorplan Notes Payable in our Notes to Condensed Consolidated Financial Statements for additional information), cash from operations, borrowings under our credit facilities, working capital, dealership and real estate acquisition financing and proceeds from debt and equity offerings. We anticipate we will generate sufficient cash flows from operations, coupled with cash on hand and available borrowing capacity under our credit facilities, to fund our working capital requirements, service our debt and meet any other recurring operating expenditures.

Available Liquidity Resources

We had the following sources of liquidity available (in millions):

	September 30, 2022
Cash and cash equivalents	\$ 20.5
Floorplan offset accounts	218.5
Available capacity under Acquisition Line	551.2
Total liquidity	\$ 790.3

Cash Flows

We arrange our new and used vehicle inventory floorplan financing through lenders affiliated with our vehicle manufacturers and our Revolving Credit Facility (as defined in Note 10. Floorplan Notes Payable in the Notes to Condensed Consolidated Financial Statements). In accordance with U.S. GAAP, we report floorplan financed with lenders affiliated with our vehicle manufacturers (excluding the cash flows from or to manufacturer-affiliated lenders participating in our syndicated lending group) within *Cash Flows from Operating Activities* in the Condensed Consolidated Statements of Cash Flows. We report floorplan financed with the Revolving Credit Facility (including the cash flows from or to manufacturer-affiliated lenders participating in the facility) and other credit facilities in the U.K. unaffiliated with our manufacturer partners, within *Cash Flows from Financing Activities* in the Condensed Consolidated Statements of Cash Flows. Refer to Note 10. Floorplan Notes Payable within our Notes to Condensed Consolidated Financial Statements for additional discussion of our Revolving Credit Facility.

However, we believe that all floorplan financing of inventory purchases in the normal course of business should correspond with the related inventory activity and be classified as an operating activity. As a result, we use the non-GAAP measure "Adjusted net cash provided by/used in operating activities" and "Adjusted net cash provided by/used in financing activities" to further evaluate our cash flows. We believe that this classification eliminates excess volatility in our operating cash flows prepared in accordance with U.S. GAAP. In addition, floorplan financing associated with dealership acquisitions and dispositions are classified as investing activities on an adjusted basis to eliminate excess volatility in our operating cash flows prepared in accordance with U.S. GAAP.

The following table reconciles cash flows on a U.S. GAAP basis to the corresponding adjusted amounts (in millions):

	Nine Months Ended September 30,				
		2022		2021	% Change
CASH FLOWS FROM OPERATING ACTIVITIES:

Sources and Uses of Liquidity from Operating Activities — Nine Months Ended September 30, 2022 Compared to 2021

For the Current Year, net cash provided by operating activities decreased by \$584.1 million, as compared to the Prior Year. On an adjusted basis for the same period, adjusted net cash provided by operating activities increased by \$136.4 million. The increase on an adjusted basis was primarily driven by an \$809.3 million increase in adjusted net floorplan borrowings and a \$129.6 million increase in net income, partially offset by a \$799.6 million increase in inventory levels.

Sources and Uses of Liquidity from Investing Activities — Nine Months Ended September 30, 2022 Compared to 2021

For the Current Year, net cash used in investing activities increased by \$162.3 million, as compared to the Prior Year. On an adjusted basis for the same period, adjusted net cash used in investing activities increased by \$157.5 million, primarily driven by a \$347.2 million increase in acquisition activity, partially offset by a \$115.3 million increase in proceeds from disposition of franchises and property and equipment and a \$59.4 million increase in net proceeds from the sale of discontinued operations.

Capital Expenditures

Our capital expenditures include costs to extend the useful lives of current dealership facilities, as well as to start or expand operations. In general, expenditures relating to the construction or expansion of dealership facilities are driven by dealership acquisition activity, new franchises being granted to us by a manufacturer, significant growth in sales at an existing facility, relocation opportunities or manufacturer imaging programs. We critically evaluate all planned future capital spending, working closely with our manufacturer partners to maximize the return on our investments. We forecast our capital expenditures for the full year of 2022 will be approximately \$105.0 million as compared to \$99.6 million for the full year in 2021, excluding expenditures related to real estate purchases and future acquisitions, which could generally be funded from excess cash.

For the Current Year, \$93.3 million was used to purchase property and equipment, primarily consisting of \$83.7 million in capital expenditures and \$10.0 million in purchases of real estate associated with existing dealership operations.

Sources and Uses of Liquidity from Financing Activities — Nine Months Ended September 30, 2022 Compared to 2021

For the Current Year, net cash used in financing activities decreased by \$543.8 million, as compared to the Prior Year. On an adjusted basis for the same period, adjusted net cash used in financing activities increased by \$181.7 million. The increase in net cash used in financing activities on an adjusted basis was primarily driven by Current Year increases in share repurchases of \$340.9 million and net repayment of debt of \$49.6 million, partially offset by increases in net borrowings on our Floorplan lines of \$211.6 million (representing the net cash activity in our floorplan offset account).

Credit Facilities, Debt Instruments and Other Financing Arrangements

Our various credit facilities, debt instruments and other financing arrangements are used to finance the purchase of inventory and real estate, provide acquisition funding and provide working capital for general corporate purposes.

The following table summarizes the commitment of our credit facilities as of September 30, 2022 (in millions):

		Total		
	Cor	mmitment	Outstanding	Available
U.S. Floorplan Line (1)	\$	1,200.0	\$ 496.2	\$ 703.8
Acquisition Line (2)		763.4	 212.2	551.2
Total revolving credit facility		1,963.4	708.4	 1,255.0
FMCC Facility (3)		300.0	19.0	281.0
Total U.S. credit facilities (4)	\$	2,263.4	\$ 727.4	\$ 1,536.0

⁽¹⁾ The available balance at September 30, 2022, includes \$206.1 million of immediately available funds. The remaining available balance can be used for vehicle inventory financing.

We have other credit facilities in the U.S. and the U.K. with third-party financial institutions, most of which are affiliated with the automobile manufacturers that provide financing for portions of our new, used and rental vehicle inventories. In addition, we have outstanding debt instruments, including our 4.00% Senior Notes, as well as real estate related and other debt instruments. Refer to Note 9. Debt in our Notes to Condensed Consolidated Financial Statements for further information.

Covenants

Our Revolving Credit Facility, indentures governing our senior notes and certain mortgage term loans contain customary financial and operating covenants that place restrictions on us, including our ability to incur additional indebtedness, create liens or to sell or otherwise dispose of assets and to merge or consolidate with other entities. Certain of our mortgage agreements contain cross-default provisions that, in the event of a default of certain mortgage agreements and of our Revolving Credit Facility, could trigger an uncured default.

As of September 30, 2022, we were in compliance with the requirements of the financial covenants under our debt agreements. We are required to maintain the ratios detailed in the following table:

	As of Septem	nber 30, 2022
	Required	Actual
Total adjusted leverage ratio	< 5.75	1.77
Fixed charge coverage ratio	> 1.20	5.77

Based on our position as of September 30, 2022, and our outlook as discussed within Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, we believe we have sufficient liquidity and do not anticipate any material liquidity constraints or issues with our ability to remain in compliance with our debt covenants.

Refer to Note 9. Debt and Note 10. Floorplan Notes Payable in our Notes to Condensed Consolidated Financial Statements for further discussion of our debt instruments, credit facilities and other financing arrangements existing as of September 30, 2022.

⁽²⁾ The outstanding balance of \$212.2 million is related to outstanding letters of credit of \$12.2 million and \$200.0 million in borrowings. The borrowings outstanding under the Acquisition Line included \$200.0 million USD borrowings. The available borrowings may be limited from time to time, based on certain debt covenants.

⁽³⁾ The available balance at September 30, 2022, includes \$12.4 million of immediately available funds. The remaining available balance can be used for Ford new vehicle inventory financing.

⁽⁴⁾ The outstanding balance excludes \$230.7 million of borrowings with manufacturer-affiliates and third-party financial institutions for foreign and rental vehicle financing not associated with any of our U.S. credit facilities.

Table of Contents

Share Repurchases and Dividends

From time to time, our Board of Directors authorizes the repurchase of shares of our common stock up to a certain monetary limit. On August 16, 2022, our Board of Directors increased the share repurchase authorization by \$130.5 million to \$250.0 million. During the nine months ended September 30, 2022, 2,047,658 shares were repurchased at an average price of \$175.58 per share, for a total of \$359.5 million. As of September 30, 2022, we had \$164.0 million available under our current stock repurchase authorization.

During the Current Quarter, we adopted a Rule 10b5-1 trading plan that was effective from October 3, 2022 to October 19, 2022. Under the plan, we repurchased an additional 638,072 shares subsequent to September 30, 2022, at an average price of \$156.70 per share, for a total cost of \$100.0 million.

During the Current Quarter, our Board of Directors approved a quarterly cash dividend of \$0.38 per share on all shares of our common stock, which resulted in \$5.8 million paid to common shareholders and \$0.2 million to unvested RSA holders.

Future share repurchases and the payment of any future dividends are subject to the business judgment of our Board of Directors, taking into consideration our historical and projected results of operations, financial condition, cash flows, capital requirements, covenant compliance, current economic environment and other factors considered relevant.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to a variety of market risks, including interest rate risk and foreign currency exchange rate risk. We address interest rate risks primarily through the use of interest rate swaps. We do not currently hedge foreign exchange risk, as discussed further below. The following quantitative and qualitative information is provided regarding our foreign currency exchange rates and financial instruments to which we are a party at September 30, 2022, and from which we may incur future gains or losses from changes in market interest rates and/or foreign currency rates. We do not enter into derivative or other financial instruments for speculative or trading purposes.

Interest Rates

We have interest rate risk on our variable-rate debt obligations, primarily consisting of our U.S. Floorplan Line. Based on variable-rate borrowings outstanding of \$1.6 billion and \$0.8 billion for the nine months ended September 30, 2022 and 2021, respectively, a 100 basis-point change in interest rates would have resulted in an approximate \$6.2 million and \$1.2 million change to our annual interest expense, respectively, after consideration of the average interest rate swaps in effect during the periods.

To mitigate the impact of interest rate fluctuations, we employ an interest rate hedging strategy, whereby we swap variable interest rate exposure on a portion of our borrowings for a fixed interest rate. In addition, our exposure to changes in interest rates with respect to our variable-rate floorplan borrowings is partially mitigated by manufacturers' interest assistance, which in some cases is influenced by changes in market-based variable interest rates. We reflect interest assistance as a reduction of new vehicle inventory cost until the associated vehicle is sold. During the nine months ended September 30, 2022 and 2021, we recognized \$42.1 million and \$40.6 million, respectively, of interest assistance as a reduction of new vehicle cost of sales

Foreign Currency Exchange Rates

The functional currency of our U.K. subsidiaries is the GBP. Our exposure to fluctuating foreign currency exchange rates relates to the effects of translating financial statements of those subsidiaries into our reporting currency, which we do not hedge against based on our investment strategy in these foreign operations. A 10% devaluation in average foreign currency exchange rates for the GBP to the USD would have resulted in a \$194.6 million and \$181.9 million decrease to our revenues for the nine months ended September 30, 2022 and 2021, respectively.

Refer to Note 7. Financial Instruments and Fair Value Measurements in our Notes to Condensed Consolidated Financial Statements for further information about our market sensitive financial instruments.

Table of Contents

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As required by Rule 13a-15(b) under the Exchange Act, we have evaluated, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this quarterly report. Our disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by us in reports that we file under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure and is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. Based upon that evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of September 30, 2022, at the reasonable assurance level.

Our management, including our principal executive officer and our principal financial officer, does not expect that our disclosure controls and procedures can prevent all possible errors or fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that objectives of the control system are met. There are inherent limitations in all control systems, including the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple errors or mistakes. Additionally, controls can be circumvented by the intentional acts of one or more persons. The design of any system of controls is based in part upon certain assumptions about the likelihood of future events and while our disclosure controls and procedures are designed to be effective under circumstances where they should reasonably be expected to operate effectively, there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Because of the inherent limitations in any control system, misstatements due to possible errors or fraud may occur and not be detected.

Changes in Internal Control over Financial Reporting

During the three months ended September 30, 2022, there were no changes in our system of internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are not party to any legal proceedings, including class action lawsuits that, individually or in the aggregate, are reasonably expected to have a material adverse effect on our results of operations, financial condition or cash flows. For a discussion of our legal proceedings, refer to Note 12. Commitments and Contingencies within our Notes to Condensed Consolidated Financial Statements.

Item 1A. Risk Factors

Except as set forth below, during the nine months ended September 30, 2022, there were no changes to the Risk Factors disclosed in Item 1A. Risk Factors of our 2021 Form 10-K.

The Russian invasion of Ukraine and the retaliatory measures imposed by the U.S., U.K., European Union and other countries and the responses of Russia to such measures have caused significant disruptions to domestic and foreign economies.

The Russia and Ukraine Conflict had an immediate impact on the global economy resulting in higher prices for oil and other commodities. The U.S., U.K., European Union and other countries responded to Russia's invasion of Ukraine by imposing various economic sanctions and bans. Russia has responded with its own retaliatory measures. These measures have impacted the availability and price of certain raw materials throughout the global economy. The invasion and retaliatory measures also disrupted economic markets. The global impact of these measures is continually evolving and cannot be predicted with certainty and there is no assurance that Russia's invasion of Ukraine and responses thereto will not further disrupt the global economy and supply chain. In particular, the Russia and Ukraine Conflict has further impacted the ability of certain OEMs to produce new vehicles and new vehicle parts, which may result in continued disruptions to the supply of new and used vehicles. Further, there is no assurance that when the Russia and Ukraine Conflict ends, countries will not continue to impose sanctions and bans.

While these events have not materially interrupted our operations, these or future developments resulting from the Russia and Ukraine Conflict, such as a cyberattack on the U.S. or our suppliers, could disrupt our operations, increase the cost or decrease the availability of certain materials necessary to produce vehicles we sell or obtain parts to complete maintenance and collision repair services, or make it difficult to access debt and equity capital on attractive terms, if at all, and impact our ability to fund business activities and/or limit future acquisition activity.

Recent economic and financial developments, including rising inflation, high energy prices, increasing interest rates and the potential recessionary environment could adversely affect our operations and financial condition.

During the Current Year, the global economy experienced rising inflation and an increase in gasoline and energy prices. In response to inflationary pressures and macroeconomic conditions, the U.S. Federal Reserve, along with other central banks, including in the U.K., continued to increase interest rates throughout 2022, which could lower demand for new and used vehicles in future periods. Additionally, U.S. GDP shrank for the second consecutive quarter as of the quarter ended June 30, 2022, indicating that the U.S. economy may be entering a recession. In Europe, rising energy costs as a result of supply disruptions and increased winter demand for heating could place additional strain on our suppliers' ability to maintain current production levels of vehicles and vehicle parts. Across the European Union, these energy constraints could result in nations or regions enacting emergency energy related policies, limiting energy availability for manufacturers. Any such production constraints could further exacerbate an already ailing supply chain. The impact of these macroeconomic developments on our operations cannot be predicted with certainty.

Rising inflation, increased energy costs and a prolonged recession could adversely impact our operations, the operations of our suppliers and customer demand for our vehicles and services. Refer to Item 1A. Risk Factors of our 2021 Form 10-K for additional information regarding the potential impact of economic and financial risks on the Company. Continued interest rate increases could have a material adverse impact on our interest expense and ability to obtain financing through the debt markets, as well as consumers' ability to obtain financing for the purchase of new and used vehicles. Refer to Item 3. Quantitative and Qualitative Disclosures About Market Risk for additional analysis regarding our interest rate sensitivity.

Recent proposed changes to regulations could adversely impact our operations.

New laws and regulations at the state and federal level may be enacted which could materially adversely impact our business. For example, in 2022, the Federal Trade Commission proposed new regulations for automotive dealers that would prohibit a wide range of current industry-accepted sales practices with regard to sales and advertising of our vehicles and products, require an extensive series of both oral and written disclosures to be made at the initial contact in regard to the sale price of vehicles, financial terms and voluntary protection products, mandate the posting of certain pricing and other information on dealer websites, and impose burdensome recordkeeping requirements. Failure to adhere to these new policies could subject the Company to significant monetary and other penalties or require us to make adjustments to our products and services, any or all of which could result in lost revenues, increased expenses and substantial adverse publicity. These changes, if adopted as proposed, may lead to additional transaction times for the sale of vehicles, complicate the transaction process, decrease customer satisfaction, and impose recordkeeping burdens on our employees, among other effects. If these regulations or other adverse changes in law were to be enacted, it could have an adverse effect on our business.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Recent Sales of Unregistered Securities

None.

Use of Proceeds

None

Issuer Purchases of Equity Securities

The following table sets forth information with respect to shares of common stock repurchased by us during the three months ended September 30, 2022:

Period	Total Number of Shares Purchased	·	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽¹⁾	P	pproximate Dollar Value of Shares that May Yet Be Purchased Under the Plans r Programs (in millions) (1)
July 1, 2022 — July 31, 2022	5,600	\$	175.41	5,600	\$	138.0
August 1, 2022 — August 31, 2022	230,229	\$	181.82	230,229	\$	226.6
September 1, 2022 — September 30, 2022	374,100	\$	167.28	374,100	\$	164.0
Total	609,929			609,929		

⁽¹⁾ Our Board of Directors from time to time authorizes the repurchase of shares of our common stock up to a certain monetary limit. On August 16, 2022, our Board of Directors increased the share repurchase authorization by \$130.5 million to \$250.0 million. Our share repurchase authorization does not have an expiration date.

During the three months ended September 30, 2022, we adopted a Rule 10b5-1 trading plan that was effective from October 3, 2022 to October 19, 2022. Under the plan, we repurchased an additional 638,072 shares subsequent to September 30, 2022 at an average price of \$156.70, for a total cost of \$100.0 million.

Future share repurchases are subject to the business judgment of our Board of Directors, taking into consideration our historical and projected results of operations, financial condition, cash flows, capital requirements, covenant compliance, current economic environment and other factors considered relevant. As of September 30, 2022, we had \$164.0 million available under our current share repurchase authorization.

Item 6. Exhibits

The exhibits required to be filed or furnished by Item 601 of Regulation S-K are listed below.

FIRST AMENDMENT TO INCENTIVE COMPENSATION, CONFIDENTIALITY, NON-DISCLOSURE AND NON-COMPETE AGREEMENT

This First Amendment (this "Amendment") is entered into between Group 1 Automotive, Inc., a Delaware corporation (the "Company"), and Daryl A. Kenningham ("Employee"), effective as of August 24, 2022 (the "Amendment Effective Date").

RECITALS

WHEREAS, the Company and Employee previously entered into that certain Incentive Compensation, Confidentiality, Non-Disclosure and Non-Compete Agreement effective June 6, 2011 (the "Incentive Agreement"); and

WHEREAS, in connection with the Employee's new position as the Company's President and Chief Operating Officer, effective as of August 24, 2022, and, effective January 1, 2023, Chief Executive Officer, the Company and Employee desire to amend the Incentive Agreement in certain respects.

NOW, **THEREFORE**, in consideration of the premises and the mutual covenants and agreements contained herein, the sufficiency of which is hereby acknowledged, the parties agree that the Incentive Agreement is hereby amended as follows, effective as of the Amendment Effective Date:

AGREEMENTS

1. <u>Section 1</u> of the Incentive Agreement is amended to read in its entirety as follows:

1. BASE SALARY AND INCENTIVE COMPENSATION

- 1.1 **Base Salary**. Beginning on the Amendment Effective Date, Employee's base salary shall be \$1,100,000.00 per annum, and shall be paid in semi-monthly installments in accordance with Employer's standard payroll practice. Employee's base salary may be increased from time to time by Employer and, after any such increase, Employee's new level of base salary shall be Employee's base salary for purposes of this Agreement until the effective date of any subsequent change.
- 1.2 **Grants of Incentive Compensation**. Employee shall be eligible to receive incentive awards under Employer's 2014 Long Term Incentive Plan (or other then-current long term incentive plan(s), as applicable, the "Incentive Plans") in such amounts and in such form as determined in the sole discretion of the Compensation Committee. If Employee is granted such incentive awards, Employee shall enter into a separate written award agreement setting forth the terms and conditions of such awards.
- 1.3 **Condition of Incentive Award Grants**. The rights and liabilities of Employer and Employee regarding entitlement to, and vesting of, any incentive compensation awards granted pursuant to this Agreement or pursuant to the Incentive Plans shall be conditioned and dependent on the Employee's consent and agreement to the promises set forth in Sections 2 and 3 of this Agreement. In the event that any provision set forth in Sections 2 and 3 are violated, Employer shall have the right, among other remedies, to demand forfeiture of any equity award realized during the twelve (12) months prior to such violation or declaration.

- 2. Section 3.5 of the Incentive Agreement is amended to read in its entirety as follows:
- 3.5 Materiality and Conditionality of Section 3.1 is material to this Agreement. Employee's agreement to strictly comply with Section 3.1 is a precondition for Employee's receipt of payments and vesting of Incentive Plan awards pursuant to Section 1 of this Agreement. Whether or not Section 3.1 or any portion thereof has been held or found invalid or unenforceable for any reason whatsoever by a court or other constituted legal authority of competent jurisdiction, upon any violation of Section 3.1 or any portion thereof, or upon a finding that a violation would have occurred if such Section or any portion thereof were enforceable, the Employee and Employer agree that (i) the Employee's interest in the Incentive Plan awards granted pursuant to Section 1 of this Agreement shall automatically lapse and be forfeited; (ii) Employer shall have no obligation to make any further payments to Employee under the terms of the Incentive Plan awards granted pursuant to Section 1 of this Agreement; and (iii) Employer shall be entitled to receive the full value of any payments which were previously made to the Employee pursuant to the terms of the Incentive Plan awards granted pursuant to Section 1 of this Agreement in the previous twelve (12) months, as well as the value of any Incentive Plan awards that may have vested during the past twelve (12) months from the date of the Employee's termination, for any reason, to the date on which a court or arbitration panel held or found the non-compete article to have been violated.
- 3. Section 5.12 of the Incentive Agreement shall be amended by replacing the reference to "Section 1.3" with "Section 1.2."
- 4. <u>Miscellaneous</u>
 - Except as expressly amended hereby, the Incentive Agreement, as amended, is unchanged and remains in full force and effect.
- This Amendment is made a part of, and is incorporated into, the Incentive Agreement and is subject to all provisions therein (as amended hereby), including the amendments, waivers, construction, notices, governing law and entire agreement provisions thereof. This Amendment shall be governed by and construed in accordance with the laws of the State of Texas without reference to principles of conflict of laws.

SECOND AMENDMENT TO EMPLOYMENT AGREEMENT

This Second Amendment (this "Second Amendment") is entered into between Group 1 Automative, Inc., a Delaware corporation (the "Company"), and Earl J. Hesterberg ("Employee"), effective as of August 24, 2022 (the "Amendment Effective Date").

RECITALS

WHEREAS, the Company and Employee previously entered into an employment agreement dated May 19, 2015 (the "Employment Agreement");

WHEREAS, the Company and Employee previously amended the Employment Agreement effective May 17, 2018 (the "First Amendment"); and

WHEREAS, the Company and Employee desire to amend the Employment Agreement in certain respects.

NOW, THEREFORE, in consideration of the premises and the mutual covenants and agreements contained herein, the sufficiency of which is hereby acknowledged, the parties agree that the Employment Agreement is hereby amended as follows, effective as of the Amendment Effective Date:

AGREEMENTS

- 1. <u>Section 3.1</u> of the Employment Agreement is amended to read in its entirety as follows:
- **"3.1. Term.** The Agreement will continue until terminated by either Employer or Employee upon delivery of written notice of termination specifying the date of termination in such notice (which date will constitute the end of the "Term" for purposes of his Agreement). As of the Amendment Effective Date, Employee has delivered written notice to Employer that the Term shall end automatically, and with no further action required of either Employer or Employee, upon December 31, 2022. For purposes of clarity, the termination of the Agreement upon expiration of the Term on December 31, 2022 shall be deemed a Voluntary Termination pursuant to this Agreement, and shall not result in Employee becoming entitled to severance payments or benefits pursuant to Section 3.5 below; provided, however, such Voluntary Termination on December 31, 2022 will constitute a "Qualified Retirement" and "Planned Retirement," as applicable, for purposes of Employee's outstanding equity-based compensation arrangements."

2. <u>Miscellaneous</u>

- All references in the Employment Agreement to the "Agreement" shall be deemed to refer to the Employment Agreement as amended by the First Amendment and this Second Amendment.
- Except as expressly amended hereby, the Employment Agreement, as amended, is unchanged and remains in full force and effect.
- This Second Amendment is made a part of, and is incorporated into, the Employment Agreement and is subject to all provisions therein (as amended hereby), including the amendments, waivers, construction, notices, governing law and entire agreement provisions thereof. This Second Amendment shall be governed by and construed in accordance with the laws of the State of Texas without reference to principles of conflict of laws.

[Remainder of Page Intentionally Blank; Signature Page Follows]

IN WITNESS WHEREOF, Employee has hereunto set Employee's hand and the Company has caused this Second Amendment to be executed in its name on its behalf, effective as of the dates provided for herein.

CERTIFICATION PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Earl J. Hesterberg, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q for the period ended September 30, 2022 of Group 1 Automotive, Inc. ("registrant");
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Earl J. Hesterberg Chief Executive Officer

CERTIFICATION PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Daniel J. McHenry, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q for the period ended September 30, 2022 of Group 1 Automotive, Inc. ("registrant");
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the
 effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
